THE Democrats seem to be drawing much comfort from the fact that in Maine pantaloons are made without hip-pockets.

THE Democrats of Maine are just now contributing liberally to the GRANT boom. Every disaster has its compensations.

GARCELON proposes to make the Maine legislature periparetic. As he is out of autherity now, he should put his part of it on a hand-sled and draw it around himself to keep it away from the people.

THE Democrats can take their Convention to Cincinnati in safety. The candidate plings. At the outset the Herald was inof that body upon whose victorious prospects for a nomination the gas may be part of the disfranchised majority in Maine, turned down, will never regret it.

It is a pity that the GRANT boom does not purpose of tyranny and outrage upon popudevelop with sufficient vigor to please the flabby sort of Democrats. A little patience may be met by a rich reward in the way of vigor. It is in its infancy now, so to the result of an election, and there is no legal

peak.

PRESIDENT SEELYE, of Amberd, thinks
we have elected our last President. The we have elected our last President. The only wonder about this is that he concedes the election of the last one. As a rule Mr. SEELYE is so fair, so just and so unprejudiced in his adherence to the Republican party, so straightforward and all that sort of thing, that he generally indorses all its onemics have to say against it.

DEACON RICHARD SMITH, of the Cincinnati Gazette, says he will support GRANT if licans of Maine have acted wisely in not he is nominated. This is not strange, for precipitating popular resistance in advance the Gazette is a Republican newspaper and of a more full and complete development of the good Deacon is himself a Republican. the infamous plot of usurpation and wrong; It is a little strange, however, that circum- but, as the Herald intimates, if this scheme stances should have induced or required to overturn the expressed will of the peohim to make this explanation. Colonado comes out of the old year with flying colors. She has made a proud record in the way of advancement, and her march on the road of progress is really marvelous. In this Colorado is only typical of the entire West, though her march seems to be by a more vigorous step than any of her young sisters. The year just closed has proved the most prosperous in her history. Her general business interests have been exceedingly prosperous, while her commercial failures are comparatively few, showing that prudence and sagacity have attended the advancing murch of her business men. # OTIS BROTHERS & CO.,

Builders of the "OTIS" Steam and "HALE" Hydraulic Passenger and Freight

# ELEVATORS.

During the past twenty-five years we have constructed the greater part of the first-class Elevator work throughout the United States. Our Washington work may be seen at the U.S. Capitol, the War and Navy Building, Treasury Building, Corcoran Building, Ebbitt House, Willard's Hotel, National Hotel, Evans' Building, Metropolitan Hotel, Hamilton House, Republican Building (Census Bureau), Government Printing Building.

We have erected in New York city, and elsewhere, a simple and safe PRIVATE HOUSE HYDRAULIC ELEVATOR, readily operated by a lady.

We are building the Hoisting Machinery to be used in the construction of the WASHINGTON MONUMENT, capable of raising a load of nine tons to the height of 500 feet. After the completion of the Monument this machinery will operate a Passenger Elevator.

Our Washington Address: EBBITT HOUSE.
